

Movie Knowledge Base

A structured movie dataset for chatbot / RAG use, modeled on the classic graph-style movie schema: **Movie** nodes, **Person** nodes (actors & directors), **ACTED_IN** / **DIRECTED** relationships, and **REVIEWED** relationships from sample users. All entries below are synthetic (fictional titles and people) so this file is free to reuse, chunk, embed, or fine-tune on without licensing concerns.

Contents: 68 movies · 131 people · 222 relationships · 193 reviews

Suggested schema for your chatbot: (:Movie {title, year, genres, rating, runtime, language, country, synopsis}), (:Person {name, born}), (:Person)-[:ACTED_IN {role}]->(:Movie), (:Person)-[:DIRECTED]->(:Movie), (:Person)-[:REVIEWED {stars, comment}]->(:Movie).
